Erica

LETTINI

2025

Antonio Citterio

Description

The Erica sunbeds take up the elements that characterize the outdoor seating collection of the same name: the powder-coated die-cast aluminium structure which offers lightness and durability and the interlacing in polypropylene strips reinforced by a high-resistance internal core. Comfort and practicality are guaranteed by the backrest that can be adjusted in different positions, by the padded mattress and by the design that makes them stackable. The wheels they are equipped with allow them to be moved easily.

Technical information

Frame
die-cast aluminium and extrusions with polyurethane painting
Upholstery
shaped polyurethane, polyester fibre cover
Webbing
polypropylene fibre and synthetic rubber threads
Interlacing
polypropylene fibre braid
Wheels and ferrules
thermoplastic material
Waterproof cover cloth
PES fabric coated on one side in PU
Cover
fabric in limited categories
