Mini Papilio

SEDIE

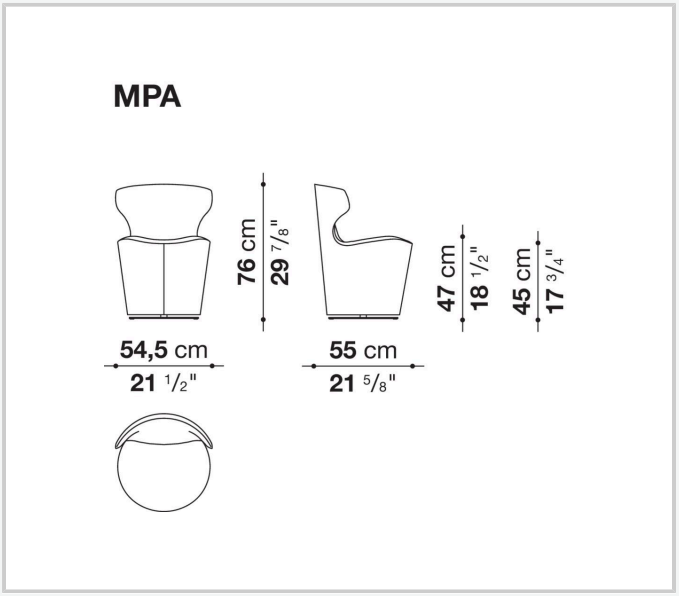
2012

Naoto Fukasawa

Description

Upholstered either in fabric or leather and suited to both residential and public spaces, Mini Papilio echoes the characteristics of the iconic Grande Papilio armchair, only on a smaller scale. The playful design features a swivel base allowing 360 degree rotation with automatic return to the pre-set position. The image is that of a chair that welcomes you gracefully – with the graceful movement of a butterfly, or “papilio” in Latin. Fluidly designed around an upside-down truncated cone, the welcoming and sinuous shape of the seat and back ensures utmost comfort to the user. The wings that extend beyond the sides of the chair emphasise the feeling of comfort by supporting the hips and back.

Technical information

Internal frame
tubular steel and steel profiles
Internal frame upholstery
flexible cold shaped polyurethane foam, polyester fibre cover
Swivel base-frame (MPA)
steel laminate and aluminium extrusion
Swivel base-frame (MPAM)
steel laminate and aluminium extrusion, automatic return mechanism
Ferrules
thermoplastic material
Cover
fabric or leather in limited categories


Technical drawings
