

Terminal 1

POLTRONE

2008

Jean-Marie Massaud

Description

With the dual function of armchair and chaise longue, Terminal 1 possesses the essential elements of a floating sculpture. A strong aptitude for experimentation results in fluid shapes, epitomised by an exquisite balance between the seats and the metal support, and a striking contrast between the glossy frame and the matt leather cover, enhancing the sophistication of the piece's monochrome appearance.

Technical information

Internal shell

hard polyurethane

Internal shell upholstery

Bayfit® flexible cold shaped polyurethane foam

Support frame

tubular steel

External shell

hard polyurethane

Ferrules

thermoplastic material

Cover

Gamma leather
