

Tobi-Ishi Outdoor

SMALL TABLES

2018

Edward Barber & Jay Osgerby

Description

The Tobi-Ishi Outdoor small table echoes the Zen-inspired dining tables of the same name that have become true icons of design. The name itself is a reference to the polished stones (tobi-ishi) used ornamentally in traditional Japanese gardens. The overhang of the top and the vertical trapezoidal bases set at right angles generate an essential sculptural figure that appears to change shape depending on the point of observation. Made entirely of cement, Tobi-Ishi Outdoor comes in four colour variants.
