

Nooch

ARMCHAIRS

2023

Piero Lissoni

Description

After the great success of Borea, Piero Lissoni and B&B Italia continue to pursue research and sustainability in the outdoor sector, creating Nooch, a modular seating system whose name is inspired by the tropical botanical garden of Nong Nooch in Thailand. The armchair's key feature is the tubular structure in recycled aluminium, a light and strong material, completely recyclable. A choice inspired by simplicity, which recalls elementary tubular structures and ennobles them with a design that pays attention to every detail. The intersection of the structural elements represents the iconic feature of this collection, with the particular elbow curve achieved by the way the aluminium bends. A design and engineering detail that combines function and beauty. The paddings are designed with sustainability in mind. They use regenerated materials, which are completely separable, and consist of two layers of polyurethane with different densities and firmness: one layer made of polyurethane recycled from production waste and one made of virgin bio-polyurethane, both wrapped in an outer sheath of recycled PET.

Technical information

Gestell

Aludruckguss und fließgepresstes Aluminium

Rückenlehne und Sitz Füllung

geformtes Polyurethan, aus PET recycelte biologisch abbaubare Polyesterfaser, Futter aus Polyesterfaser mit wasserabweisender Beschichtung

Kissen Füllung (NH60_60C)

aus PET recycelte biologisch abbaubare Polyesterfaser, Futter aus Polyesterfaser mit wasserabweisender Beschichtung

Abstandshalter

Kunststoff

Gleiter

Elastomer thermoplastisch

Wetterfeste Abdeckung

Polyesterstoff auf einer PU-Seite

Bezug

Stoff in begrenzten Kategorien
