

Arne

SOFAS

2005

Antonio Citterio

Description

Designed to create the setting for leisure activities, Arne stands out for the curved shape that envelops the user. It is an invitation to socialise and share moments together, to converse and watch television shows on a large screen. Perfect in the centre of the room, when placed against the wall it loses none of the sense of comfort and lightness conveyed by the aluminium supports on which both the seat and backrest seem to be suspended.

Technical information

Innenrahmen

Stahlrohre und -profile

Innenrahmen Füllung

kalt elastischer Polyurethanschaum Bayfit®, Futter aus Polyesterfaser
