Canasta

SOFAS

2007

Patricia Urquiola

Description

Vienna straw, with its geometric decorative pattern, is the inspiration behind Canasta. Enlarged to macro proportions, the design is applied to chairs with a striking effect. The circular sofa is characterised by ribbons in polyethylene fibre woven on aluminium frame painted with polyester powder to make them weather resistant. Classic in style but with a contemporary sense of plasticity, ideal for use at the edge of a swimming pool or in a luxuriant garden.
