TABLES

2017

Edward Barber & Jay Osgerby

Description

Tobi-Ishi Outdoor is the outdoor version of the iconic Zen-inspired indoor table of the same name. The name itself is a reference to the polished stones (tobi-ishi) used ornamentally in traditional Japanese gardens. The overhang of the top and the vertical trapezoidal bases set at right angles generate an essential sculptural figure that appears to change shape depending on the point of observation. In the outdoor version, Tobi-Ishi is made of cement in four different colours.
