

# B&B Atoll

ARMCHAIRS

2021

Antonio Citterio

## Description

The latest addition to the B&B Atoll seating range is this new small armchair. Agile and elevated in design, its thin metal legs evoke the style of the sofa and are ideally complemented by the characteristic shape of the cushions, which harmonise linearity with softness. The backrest and seat are characterised by two soft cushions that rest on a slightly inclined frame, providing the ideal balance between comfort and functionality.
