

Moon System

SOFAS

2007

Zaha Hadid

Description

With its unmistakable distinctive profile, as are the projects by Zaha Hadid, Moon System is a sofa-sculpture with curvilinear shapes and a strongly dynamic movement. It looks like a single block that contains, as if "sculpted" into a single material, the backrest, seat and armrest, which match the ottoman that perfectly corresponds to the hollows of the seat and follows its profile. Moon System is a true design statement, an iconic sofa that does not renounce to ergonomic design and comfort. The textile collection includes stretch fabrics in different colours and polyurethane coated covers that enhance its sculptural look.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam

Cover

fabric in limited categories
