
Nix

SMALL TABLES

Gabriele & Oscar Buratti

Description

Nix is a family of small tables in sheet steel painted in two colours, with tops in various finishes: sheet steel painted like the frames, ash or thick leather. Available in different shapes and sizes, they are designed to be used alone, in pairs or stacked, underlining their graphic nature. They stand out for the thinness of the tops and the hollow section of the uprights.

Technical information

Frame

steel sheet

Top (TN4)

wood or thick leather

Floor support (TN4)

felt

Floor support (TN9)

adjustable ferrules
