
Maru

SMALL TABLES

Nipa Doshi & Jonathan Levien

Description

The key feature of the small tables Maru is the thick top combined with the structure composed by three die cast aluminium legs. Available in two diameters, which make them the ideal choice either as coffee tables in front of the sofa or as occasional tables. The small table combines a glossy painted top with a satin painted structure. The low table is available with the top can be chosen among glass, wood and marble, while the structure is satin painted.
