# Landscape

ARMCHAIRS

Jeffrey Bennett

## Description

---

Airy and agile, the Landscape chaise longue, featuring an essential design with a light steel frame, has become a genuine bestseller – a true expression of comfort and elegance. The support frame is available both in a fixed and in a rocking version, transforming Landscape into the most contemporary of rocking chairs. The cover, in fabric or leather, is sewn in segments and is completely removable. For added comfort, Landscape comes with an adjustable headrest that can be positioned at will through the use of a magnet.
