
Husk

ARMCHAIRS

Patricia Urquiola

Description

Comfort and eco-sustainability are the key words for describing the Husk chairs. A collection that is a tribute to softness and an invitation to relax thanks to the generous extra soft cushions with a capitonné design. The hard shell, available in different colours, is made of Hirek®, a special plastic material made up of recycled and recyclable polymers. The cushions come in three versions, with larger sizes on the seat or on the back, or with headrest. The series is completed by the coordinated footrest.

Technical information

Shell

plastic material Hirek®
