
Bull

TABLES

Naoto Fukasawa

Description

The Bull table communicates the immediate impression of a very object thanks to the legs with an ample round section, which although slightly inclined seem to be solidly “planted in the ground”, and in contrast a slim top that seems simply to be resting lightly on the frame. Available in two sizes, Bull can be entirely in oak wood or with an oak structure and top in marble.

Technical information

Top

veneered solid wood particles panels or marble (matt polyester finish)

Frame

solid wood

Support crosspieces

steel
