
Serie Up 2000

SOFAS

Gaetano Pesce

Description

Designed in 1969, right from the onset the Up series – of which Serie Up 2000 is an evolution – has been one of the most outstanding expressions of design with its expressive shapes upholstered with elastic fabric. This innovative solution, designed as a fragment of contemporary art to be offered to a wide audience, stems from B&B Italia's extensive technological know-how in terms of polyurethane injection moulding. The series consists of seven pieces, including the sofa upholstered in a variety of colours.

Technical information

Upholstery
