Cocùn

DIVANI

2025

Antonio Citterio

Descrizione

Un rifugio accogliente, un abbraccio morbido, un sistema di sedute pensato per avvolgere e accogliere. Con Cocùn, Antonio Citterio esplora un'idea di comfort fluido e libero, dando vita a un divano modulare che si trasforma in un vero e proprio arcipelago di possibilità. Cocùn è un sistema di sedute che si articola in cinque forme geometriche differenti: un modulo rettangolare, due moduli curvi dormeuse, una chaise longue e un modulo angolare. Questi elementi possono essere liberamente combinati per creare una miriade di diverse composizioni, adattandosi con armonia a qualsiasi spazio, dalle ampie zone living agli ambienti più raccolti. Dal design avvolgente e raffinato, le linee di Cocùn esprimono un'eleganza contemporanea. La base imbottita crea una sensazione di leggerezza, mentre lo schienale, agganciato con discrezione alla base attraverso staffe in acciaio rivestite in tessuto o cuoio, offre un sostegno ergonomico senza interrompere la fluidità delle forme. Materiali pregiati e dettagli sofisticati caratterizzano Cocùn. Il profilo della base in alluminio garantisce ricercatezza estetica. I cuscini soffici e generosi assicurano un comfort avvolgente, trasformando ogni seduta in un'esperienza sensoriale unica. Il sistema invita alla socialità e al relax.
