THE CLOSET WE COVET

Since making its debut at Salone del Mobile last year, the Backstage wardrobe by B & B Italia has become an industry must-have. BY CHRIS GIBLIN

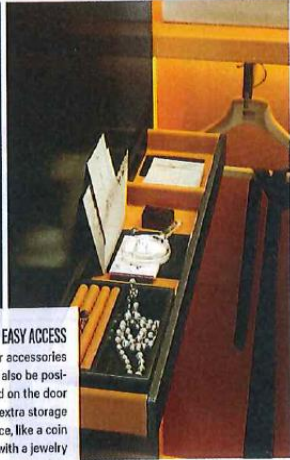

AS YOU LIKE IT
Organizational flexibility is maximized with massive deep doors that simulate a walk-in closet experience, enabling one to rethink configurations with ease.

LET THERE BE LIGHT
High-efficiency LED luminaires activate when the doors are opened, lighting each level of the wardrobe for ideal apparel visibility.

UPON REFLECTION
An adjustable full-length mirror rests on the other side of the door, allowing for effortless consultation on whether the shoes match the tie.

UNDER COVER
When not in use, the Backstage blends seamlessly into the wall, exposing only its subtle handles, shown here in dark-brown leather with saddle stitching.

EASY ACCESS
Other accessories can also be positioned on the door for extra storage space, like a coin tray with a jewelry box in leather.

PRISTINE SHELVING
Each drawer features a bronzed nickel-painted handle and dark-brown leather inserts, as well as leather internal drawer spacers.

THE BACKSTAGE wardrobe is made-to-measure; prices depend on configuration. The one shown here is about 11½ feet wide, 7½ feet tall, and 2 feet deep and starts at \$14,940. For more information, go to bebitalia.com.
