SOFAS/ ARMCHAIRS

Camaleonda

DESIGNED BY MARIO BELLINI

In its reissue, Camaleonda preserves the elements that have made it a contemporary classic. By mutual agreement, Mario Bellini and B&B Italia have decided to keep the cm 90x90 seat module, together with the backrest and the armrest, faithful to the original project, whose original cutting pattern was used for the new edition. The generous polyurethane padding that forms the characteristic capitonné design remains unchanged, still manufactured with the innovative system of cables, hooks and rings created by Bellini in 1970, which defines the characteristic look and modularity. Thanks to the tie-rods and the rings, in fact, the modules can be unhooked and recombined at will, allowing the sofa to adapt to an evolving taste and the dynamic needs of those using it. The fundamental characteristic of Camaleonda is its unlimited modularity, a geometric pattern that allows each element to become a sort of enormous pixel through which to define your home environment. By hooking and unhooking seats, backrests and armrests, you can enjoy the luxury of changing your mind as many times as you desire, moving and redesigning the space. A concept which is dear to Mario Bellini: "Of all the objects I have designed, Camaleonda is perhaps the best in terms of its sense of freedom. There are infinite number of possible configurations." The padding has been thoroughly updated by the B&B Italia's Research & Development Centre, making it even more comfortable than the original version. Thus the magical balance between the rigorous geometry of the square and the welcoming roundness of the padding is confirmed, further underlining the elasticity and tactile ergonomics that characterize many of Mario Bellini's design projects. Camaleonda can be covered with B&B Italia's entire textile and leather collection, allowing for another variable in the multitude of possible combinations. Camaleonda is a dynamic, alive and sincere object, not at all enigmatic, that allows for an infinite number of configurations while still maintaining its peculiar and unique identity.

Bend

DESIGNED BY PATRICIA URQUIOLA

It seems shaped by an artist but actually derives from a study of 3D models and digital research. It seems a monolith that has been shaped by subtraction, rounded and moulded by the designer. The irregular shape enhances comfort, the contrasting seams define the design and movement. Bend-Sofa combines manual skills and technology, solidity and strength, along with considerable flexibility in terms of use ensured by the extensive range of models.

Comes with:

- BSB (x1) - Bend Armrest Support
- B40C (x1) - Bend Cushion 24" x 15 3/4"
- B55C (x1) - Bend Cushion 24" x 21 1/4"

Solo '14

DESIGNED BY ANTONIO CITTERIO

The beautifully balanced construction of solo'14 was obtained through the reduction of all superfluous elements and the careful proportion of its components. The die-cast aluminum structure supports a deep seat, with a joint back which also acts as armrest, on which cushions sit freely. The raw edge faux leather profile highlights the silhouette of the arm rest and seat, giving it a unique sartorial finish. It is available in four shades: natural, dark brown, black and taupe, all of which can be paired with different color edges, thus creating contrasting or harmonious effects. The die-cast process is shown through the specific design of the support pieces, available in different finishes.

Comes with:

Michel

DESIGNED BY ANTONIO CITTERIO

Designed for those who love comfort and modernity, intended to be an evergreen, the Michel seating system mirrors the design philosophy of its designer who shows a preference for simple shapes - pure and elegant in their linear form without any additional decoration to underscore the concept of function. The many elements can create both formal and social configurations in an extensive range of sizes.

Comes with:

M60CP (x3) - Michel back cushions w/ roller 24" x 24"

Dives

DESIGNED BY ANTONIO CITTERIO

Dives is the ultimate sofa, whose image is enhanced by the armrest that has a taut cover on the outside, and a quilted effect on the inside inspired by the classic chesterfield sofa. The point where the two finishes meet on the armrest is highlighted by a blanket stitch detail, which is also the profile for the cushions.

Comes with:

Otium Soft

DESIGNED BY ANTONIO CITTERIO

Otium is a new seating system that stands out for its contemporary classic style, generous proportions and great comfort. Available in various sizes and two seat depths, this modular line offers multiple linear and angular compositions, also with terminal elements with ottomans. Highly distinctive details are the tapered armrests and the faux leather trimmings that outline and embellish the armrests and the seat and backrest cushions. The base is defined by a metal profile in black chrome or bronze nickel.

Comes with:

- 90x60cm back cushions (x2)
- 60x60cm back cushions (x2)
- 48x48cm optional cushions- box style (x2)

MAXALTO

Piccola Papilio

DESIGNED BY NAOTO FUKASAWA

If the wings of Grande Papilio protect the head of the user, those of Piccola Papilio support the back, creating a seat that, despite the small size, precisely responds to the demand for comfort. The truncated cone shape is unchanged, and there is still a zip on the rear of the backrest. It can fit into small rooms or even be arranged in a row. It also has a swivel system.

Husk

DESIGNED BY PATRICIA URQUIOLA

"Those who look at a sofa must visually perceive a sense of both mental and physical comfort." Patricia Urquiola has conveyed this concept to the armchair Husk by designing a stiff body made of Hirek® that contains a soft cushion divided into portions, which seem to underscore its ergonomic profile. It is endowed with an original spirit that merges with various styles. Three cushion types: standard, which is large and enveloping, or headrest. With or without an ottoman as footrest.

Apollo

DESIGNED BY ANTONIO CITTERIO

Linear sofa in two sizes, curved sofa, sofa with chaise longue, dormeuse and swivel armchair: these are the different elements that make up this seating collection with its distinct personality. They all have pleasantly curved but rigorous form, creating a very harmonious balanced aesthetic. The backrest design, seat depth, contoured shapes and generous padding are all elements that make Apollo extremely welcoming and comfortable. A rich selection of upholstery includes a wide range of fine fabrics and leathers. The fabric covers are further embellished with relief stitching, while the leather covers feature elegant "envelope" stitching. The structure is defined by a painted aluminium border in a range of sophisticated colours: bronzed nickel, black chrome, graphite and amber.

CHAIRS/ STOOLS

Husk Chair

DESIGNED BY PATRICIA URQUIOLA

Comfortable, with a modern combination of base and seat, it picks up the profile of the namesake arm-chair. The body, which is shaped with a design that cites the capitonné style, conveys a feeling of softness; the cushions, in fabric or leather, fixed with press studs, are distinguished by the quilting. Many colour variants and combinations.

Caratos Chair

DESIGNED BY ANTONIO CITTERIO

Chairs in two versions, armchairs, ottomans and coffee tables are the new proposals that extend the Caratos series launched last year. These new items both reflect and strengthen the original designs' essential features while softening them by introducing embracing shapes. The light die-cast graphite or amber painted aluminium structure is retained, while padded backrests contribute to the formation of the armrests, creating seating with no postural restrictions at all, encouraging conversation and relations between neighbours. The ottomans and coffee tables echo the design of the frames and are ideal complements to the seats to create conversation areas and social settings. reveal new future surprises.

MAXALTO

Caratos Stool

DESIGNED BY ANTONIO CITTERIO

The Caratos range has grown and is ever expanding - providing a rich collection of ideas for the most diverse environments. The common thread of each piece is their recognisable die-cast aluminium base. In addition to the chairs and armchairs presented in 2017, Caratos presents a small armchair with armrest, an armchair, a tub armchair, two stools with swivel seats, a bench, an ottoman and a coffee table. The graphite and amber metal frames are accompanied by blue, amaranth, and cream painting, which complement the fabric covers. Noteworthy is the introduction of a soft, deep pile wool velvet that creates a "teddy bear" effect. With this new collection, Caratos proves to be a group of flexible products that will reveal new future surprises.

BEDS

Alys

DESIGNED BY ANTONIO CITTERIO

A sheet of leather "pinched" in two places at the base: here is where the movement and natural inclination of the Alys headboard originate. The Buratti brothers are once again managing a material that they know well because they've already used it on the Doyl chair when they explored the theme of upholstered leather, made more comfortable than with traditional processes. For Alys, they designed a comfortable, protective headboard, a very effective shape that has thin perimeter strips marked by a lengthwise seam. The bed frame can be placed at two different heights, thanks to a standard equipment made of two sets of feet (h. 5cm or 15cm). The bed surface was designed to be low specifically to suggest an effect of suspension and floating of the super-comfortable mattress.

Astrum

DESIGNED BY ANTONIO CITTERIO

Astrum is the new table collection, rectangular, round and oval, distinguished by the special "sawhorse" base-frame. The frame is made of a single die-cast aluminium support with graphite or amber painted finish that, based on the table shape, is composed of two or three elements connected by a crosspiece and forming the base-frame for rectangular tables (width cm 100 and three lengths cm 230, 280 and 340), while three elements connected at the base of a steel ring establish the support for round tables (diameter cm 165 and 200). The triangular section of the support, raised from the ground with a slight tilt, gives the structure both lightness and solidity. The tables tops are provided in various finishes of wood and marble: brushed light, grey, brushed black and smoked oak, or in natural wenge with the possibility of a central marble section; white Calacatta, black Marquinia, green Guatemala and Emperador marble, all with a glossy finish, giving the table a more elegant look. Only with the round versions, it is possible to insert a swivel tray into the wooden and marble finishes.

FABRIC

Exceptional weaves of linen, hemp and cotton allow us to make covers that become expressions of creativity and elegance. The material, the unique craftsmanship combined with traditional weaving practices, and the quality of texture and thread count combine to equal an unparalleled elegance.

From the feel of the natural fibre to the richness of the visual appeal, these fabrics can turn any space into a place of well-being and relaxation. Discover the pleasure of being surprised by the beauty and taste of your home.

LEATHER

The skins selected by B&B Italia are obtained from European-bred calves. They are the best possible product for furnishings available throughout the world. The entire processing system is aimed at preserving the exceptional natural features of leather, including certain anomalies produced by the life of the animal, such as scars, abrasions, insect bites, etc.

These characteristics are the tangible proof of the natural origin of the product and are the features that attest to the great quality of the leather.

B&B Italia leathers are chrome-tanned and aniline-dyed; treatments that help preserve the natural qualities of the product. The exclusive tanning process allows us to obtain leather with an unmistakable softness that is very pleasing to the touch.

WOOD: A heritage to be protected

The indiscriminate use of wood and consequent depletion of the world's forests is slowly but surely becoming a thing of the past.

In many areas of the world people are now aware that forests must be managed intelligently if wood is to be used as a raw material and balance the planet's oxygen needs at the same time.

As a result, special resource maintenance and reforestation programs are being carried out in many countries.

More and more, the only trees being cut down are the ones which have reached the end of their life cycle or whose continued growth could damage other trees.

Companies such as B&B Italia recognize these environmental problems and obtain the majority of their wood from such sources. Finishing paints are made of solvents with very low toxicity and pollutant levels. Once polymerisation has occurred (hardening or drying) these paints do not leave behind any harmful substances. All paints used in the various application cycles are made using patented systems, exclusively for B&B Italia by the leading European manufacturers of wood paint. Authorized laboratories test all such treated surfaces to guarantee that they possess the optimum physical, mechanical and toxicological properties. Please note that the naturally finished surfaces of the types of wood listed above may change colour upon exposure to light.

Descriptions and pictures of products included in this catalogue have an indicative value only and are not binding for products' use. B&B Italia reserves the right to modify their products without prior notification.

For further technical information of the products, please contact the authorised dealer closest to you (see www.bebitalia.com).

Borea

DESIGNED BY PIERO LISSONI

Borea is a complete and eclectic collection of outdoor seats and tables designed by Piero Lissoni. The numerous pieces in the collection have in common tubular metal structures with a fluid and seamless design, without joints and interruptions, captivating and even emerging in the detail that extends to the base. The metal bending processes take advantage of techniques typically used in the aeronautical sector and transport them into the world of outdoor furniture bringing life to a collection with an unmistakable style. The collection includes two- and three-seater sofas, an oversized armchair, a low small armchair and a dining chair, all with stackable aluminum structures painted. Comfort is ensured by generous cushions, which are not only soft and relaxing but were also developed to be sustainable. Paddings are in fact made with polyester fiber filling coming from recycled PET plastic bottles enveloping a different densities polyurethane core. 510 1500 ml bottles are needed to create the padding for a Borea three-seater sofa, 390 bottles for the twoseater sofa, 280 for the armchair.

Comes with:
OFW48x48 - 45x45cm optional cushions (x2)

Ayana

DESIGNED BY NAOTO FUKASAWA

Minimalist and innovative, the Ayana collection becomes a new chapter in the story that connects B&B Italia to Naoto Fukasawa. It sees wood as the protagonist, interpreted in an unusual way, with a pleasant oriental touch.

If the depths and heights are a clear reference to the south-east Asian tradition, the backrest recalls a Swedish wall bar, an exercise equipment turned into a load-bearing element. Thanks to this solution, the elements of the Ayana collection can be enjoyed and appreciated at 360 degrees, discovering on each side a new elegant interplay of intersections and proportions. Two and three seat sofas and the armchair have armrests at different heights.

The armchair armrest is higher to guarantee a more ergonomic seat. The sofa armrest, which is lower, can be combined with a cushion that is easy to be fastened and removed, and helps to lie down more comfortably if necessary. The upholstery of this collection stands out for the individual cushions, all covered with waterproof fabrics.

Ayana is a project with a green soul.

The teak used to make the structures is FSC certified (Forest Stewardship Council) and all the materials that make up the various elements of the series, at the end of the product's life cycle, can be separated and disposed of with respect for the environment.

Gio

DESIGNED BY ANTONIO CITTERIO

Gio, designed by Antonio Citterio, is the new series with a contemporary classic accent dedicated to living in the open air.

A complete range of sofas, end units, chaiselongue, sunbeds, armchairs, chairs, tables and complements which have been developed from solid teak structures with a special antique grey finish, which gives the wood a particular lived-in aspect and silver-grey reflective quality.

Through the quick ship program the linear sofa 238 cm and the rectangular small table 120 cm are available.

Hybrid

DESIGNED BY ANTONIO CITTERIO

After the great success of Ribes, Antonio Citterio developed some design ideas behind it and created Hybrid, an innovative new system of modular seating elements that it is so versatile it can be arranged into an almost infinite number of combinations. The key role of the textile dimension stands out immediately, with upholsteries that cover completely the generous padding, the absolute protagonist. These are typical elements of indoor furnishings, which find with Hybrid an outdoor interpretation. Hence the name of the collection, which is proposed as a real link between the inside and the outside of the house.

Hybrid represents in fact the perfect furnishing element for climates and spaces that are defined by a continuous blend of inside and outside environments, with rooms that open to an en-plein-air dimension, and for living spaces integrated into terraces and gardens.

The combination of opposites happens not only visually, but also through the sense of touch. Hybrid guarantees in fact the typical comfort of traditional upholstered furniture for interiors, thanks to a new type of mattress seat conceived for outdoor furnishing.

The cushions are actually made with paddings with different densities, carefully designed to pleasantly accommodate the new compositions.

body and support it at the same time, without sinking. The supporting structures are almost invisible, and the seat seems to float a few centimeters above the floor. The solid base is formed by a frame in extruded aluminum painted in the colours sage, clay and anthracite, and is completed by a platform with fiberglass slats. The backrest conceals an aluminum structure, covered with soft polyurethane, which is in turn covered with a padded sheath, completed with a cover in waterproof fabric.

The platform is available in eight sizes and two depths, while the armrest and backrest come in two heights. To guarantee further comfort to the deeper seat, the low backrest can be raised with an additional headrest cushion. Additional cushions in various sizes enrich the range, offering countless design and chromatic solutions. The Hybrid collection also includes a series of new outdoor fabrics made with mélange polypropylene yarn in five colour variants that are accented by refined trims. Choices that confirm a decisive and elegant presence for interiors and outdoor spaces.

All the objects in the Hybrid collection can be dismantled completely. At the end of the life cycle, each individual element can be separated and disposed of following the path best suited to each material.

Mirto Outdoor Chaise Lounge

DESIGNED BY ANTONIO CITTERIO

A classic is born. Different types of seating: armchairs, chairs and a chaise longue are included in the collection. The folding armchair revisits the classic shape of a movie director's chair, with special details. The mesh and metal parts are finished in two colours, white and tortora, creating two colorway options in a single colour. The table and small table have the same frame and top in painted aluminium and are available in select colors. The collection expresses Antonio Citterio's stable elegance.

"Set of small mattress, headrest cushion and cover is also available separately".

Erica '19

DESIGNED BY ANTONIO CITTERIO

The Erica collection of sofas, armchairs and small chairs that was so successfully launched in 2017 has been enhanced by new sofas, still based on the same characteristic curved backrest and interlacing as before but offering a deeper seat and lived-in appearance.

The sofas come in three extra-comfortable sizes - the 170 cm and 216 cm styles with a 96 cm deep seat and the 153 cm version with a 140 cm seat - and the cushions have a different type of filling giving an even softer and more natural look and making them even more inviting.

The unusual colour juxtaposition of frame and interlacing in anthracite, tortora or a frame in sage with natural-coloured interlacing can be complemented by a vast range of cushion covers, in an array of tones and designs, all co-ordinating with each other. There is also a chair with armrests with an brand new interlaced backrest.

Tramae

DESIGNED BY unPIZZO

unPIZZO, a design studio and textile handicrafts laboratory specialized in interlacing for furnishing, continues its research on the revival of ancient craft techniques with Tramae, a brand new ottoman for B&B Italia.

Available in three dimensions, this small object full of character stands out for its hexagonal shape, which is rounded until the edges are no longer visible.

The surface shows a singular dynamic mix of materials and colors that come to life through an exclusive weave that reinterprets the tradition of wicker basket making in a contemporary key.

At the end of its lifespan, Tramae can be dismantled completely so that each component can be separated and disposed of in the best way for each material.

Outdoor covers and upholstery

FOOTDOOR FABRIC

The threads in B&B Italia Outdoor fabrics offer excellent colour resistance to UV rays, brine, chlorine, acids, suntan creams, sweat, stains and wear.

The stabilisers added for outdoor use and the additives used for dyeing the thread prevent the formation of bacteria, mold and fungus.

The stitching on the covers is designed with a special thread with a water-repellent finish, that blocks the absorption of water and penetration through to the fabric. Carefully tensioned stitching prevents the passage of water through the needle hole.

The water resistance of the fabrics, differs according to their fiber composition and their treatment.

To launder the Outdoor covers at home, please follow the instructions represented by the care symbols attached to the product.

OUTDOOR UPHOLSTERIES

Polyester covers: to better protect the upholstery (seat cushions, headrests and backs), all cushions are fitted with a polyester cover whose water repellent treatment offer greater protections and an additional barrier against the penetration of liquids. The covers on Butterfly and Fat-Sofa Outdoor upholstery also offer the additional protection of a heat-sealed ribbon under the stitching, which makes the linings completely waterproof.

Upholsteries: The seat cushions are made of contoured polyurethane, and the backrest cushions are in polyester fiber. To fight the formation of folds and/or wrinkles caused by use, we recommend simply hanging the cover out and beating it manually to remove dust and air from the fibres. If the upholstery accidentally gets wet because of a strong, unexpected shower, we recommend removing the cover and allowing the product to air/sun dry. Husk Outdoor upholstery: regularly detach the cushion from the frame and fluff it up on all sides.

To launder the upholstery at home, follow the care symbols attached to the product. Hang it in the open air to dry. When the product is not being used (for example, in the winter), we recommend you remove the seat and back cushions and place them in a dry, ventilated area.

Descriptions and pictures of products included in this catalogue have an indicative value only and are not binding for products' use. B&B Italia reserves the right to modify their products without prior notification.

For further technical information of the products, please contact the authorised dealer closest to you (see www.bebitalia.com).
